

The Batwa Cabbage Project we have sponsored in Uganda as told in his words by Semajeri Gad, the Mutwa founder of the Project

Above as doctors who were giving the Batwa medicine(drugs)from Kisoro to Rubanda by semajeri.

(See also stretcher in the roof that we sent)

Batwa children so happy and listening Semajeri 's words.

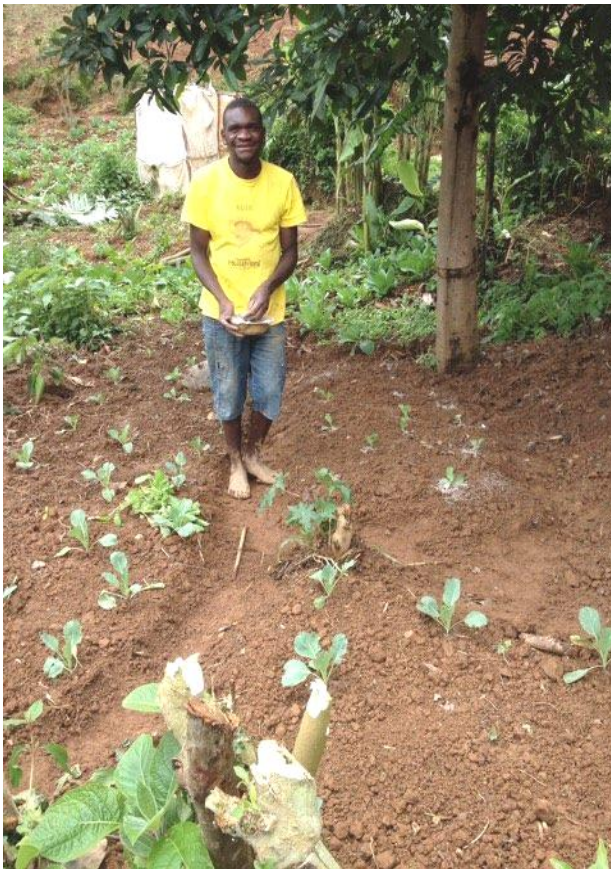

Batwa children so happy after having meeting with semajeri Gad about sensitization them how education is good

Child who is sick because of poor feeding.

Semajeri Gad was monitoring the project and seeing the successful of the project which is cabbage project.

These are benefits were got from the first project of cabbage.

We buy 1000 kg of posho and other money we buy Books for children.

I went to buy spraying medicine for the cabbage .

we buy clothes for the beneficiaries.

After now I have got new initiatives to protect cabbages to prevent insects and to grow well by using local.

These were challenges.

1 Double digging.

2 Using cow dung

Spraying using soap and water.

Onions and chills.

Future Needs:

**Internet phone to make contact
and get good prices**

More Land to rent £80

Room/office to rent £60

These are some of clothes we buy when we sold cabbages .
